CRYPTOSECURE PRIVACY POLICY

CryptoSecure seeks to ensure that purchasers of CryptoSecure products and participants in the CryptoScure ICO and in SECURE coins retain their privacy.

CryptoSecure believes that your business is no one else's. Your entitlement to privacy is important to you as well as to CryptoSecure, so CryptoSecure will protect the information you may share through participation in the ICO, SECURE coins or by purchasing any of the CryptoSecure security solutions. To protect your privacy, CryptoSecure follows different principles in accordance with worldwide practices for customer privacy and data protection.

- CryptoSecure will not sell or give away any information it may receive from you to anyone.
- CryptoSecure uses state-of-the-art security measures to protect your information from unauthorized users.

NOTICE

When using the CryptoSecure website, products, or services, CryptoSecure may ask you for information that may personally identify you (personal information) or allow CryptoSecure to contact you. Generally, this information is requested when you create a Registration ID on the CryptoSecure site or when you purchase or download CryptoSecure security solutions software, participate in SECURE coins, or participate in the CryptoSecure ICO. We use your Personal Information for four primary purposes:

- To make the CryptoSecure site easier for you to use by not having to enter information more than once.
- To help you quickly find software, services, or information.
- To help CryptoSecure create or change content so that it is most relevant to you and other users.
- To alert you to CryptoSeucre product upgrades, services, offers, and other update information.

CONSENT

If you choose not to register or provide personal information, you can still use most of the CryptoSecure site, but you will not be able to access CryptoSecure products, participate in SECURE coins, or in other areas that require registration.

ACCESS

CryptoSecure will provide you with the means to ensure that any of your personal information held by CryptoSecure is correct and current. You may review and update this information at any time in your account settings. There, you can:

- View and edit personal information you have previously provided.
- Register. Once you register your account, you won't need to do it again. Wherever you go on the CryptoSecure site, your information stays with you.

SECURITY

CryptoSecure has taken strong measures to protect the security of your personal information and to ensure that your choices for its intended use are honored. CryptoSecure takes strong precautions to protect your data from loss, misuse, unauthorized access or disclosure, alteration, or destruction.

When you transact in any way, place orders, or access your personal account information, you're utilizing CryptoSecure unique security as well as secure server software SSL, which encrypts your personal information before it's sent over the Internet. SSL is one of the safest encryption technologies available.

CryptoSecure strictly protects the security of your personal information and honors your choices for its intended use. CryptoSecure carefully protects your data from loss, misuse, unauthorized access or disclosure, alteration, or destruction.

Your personal information is never shared outside of CryptoSecure without your permission, except under conditions explained in this Policy. Within CryptoSecure, data is stored in password-controlled servers with limited online access. Your information may be stored and processed by CryptoSecure in one or more geographical locations, to further enhance security.

Finally, no one can see or edit your personal information without knowing your user name and password, so please ensure that do not share these with others.

ENFORCEMENT

If for some reason you believe CryptoSecure has not adhered to these Policy principles, please notify CryptoSecure by email at info@cryptosecure.com. Please use 'Privacy Policy' in the Subject line when communicating.

ELECTRONIC PRODUCT REGISTRATION

When you participate in SECURE coins, or buy and install a CryptoSecure security product, you may be asked to register your purchase electronically. When you do, CryptoSecure merges your registration information with any information you may have previously provided (personal profile). If you haven't previously registered, CryptoSecure creates a personal profile for you from your product registration information. If you ever want to review or update that information, you can visit your account settings anytime and edit any of the Personal Information in your profile.

CUSTOMER PROFILES

As mentioned above, every registered security product purchaser, or participant in SECURE coins has a unique personal profile. Each profile is assigned a unique personal identification number, which helps CryptoSecure ensure that only you can access your profile.

When you register, CryptoSecure creates your profile, assigns a personal identification number, then sends this personal identification number back to your hard drive in the form of a cookie, which is a very small bit of code. This code is uniquely yours. It is your passport to seamless travel across the CryptoSecure site, allowing you to download software, or participate in SECURE coins, or other offers without having to fill out registration forms with information you've already provided. Even if you switch computers, you won't have to re-register – just use your Registration ID to identify yourself.

WHAT CRYPTOSECURE DOES WITH THE INFORMATION YOU SHARE

When you provide CryptoSecure with your contact information, being mainly your email address, this information is used to send you advice of product and/or other CryptoSecure updates or important advice. Where you have provided your credit card number and billing address, or your cryptocurrency public key, then this information is used exclusively for billing and payment services at that time. For your convenience, CryptoSecure saves billing information for future orders, payments, or other transactions, but will not use this information again without your permission.

CryptoSecure may occasionally hire other companies to provide limited services on its behalf, and in this event, will only provide those companies the information they need to deliver the service, and they are prohibited from using that information for any other purpose.

CryptoSecure will not disclose your personal information under any circumstances without notice, unless required to do so by law or in the good faith belief that such action is necessary to: (a) conform to the edicts of the law or comply with legal process served on CryptoSecure, the site, or its Service Operator; (b) protect and defend the rights or property of CryptoSecure and its family of websites, and, (c) act in urgent circumstances to protect the personal safety of users of CryptoSecure, its websites, or the public.
